IN SENATE OF THE UNITED STATES,

STATEMENT,

IN ALPHABETICAL ORDER,

Of all the articles imported into the United States, with the duties imposed on them respectively; and, also, the articles free of duty.

March 23, 1832.

Prepared, and printed, in obedience to a resolution of the Senate of this date.

Resolved, That the Secretary of the Senate be directed to prepare, and cause to be printed, a statement, in alphabetical order, of all the articles imported into the United States, with the duties imposed thereon respectively; and also, the articles free of duty.

Tariff of duties on importations into the United States:

Wool.—All manufactures of wool, except flannels and baizes, the actual value of which, at the place whence imported, shall not exceed 33⅓ cents per square yard, shall pay a duty of 14 cents per square yard. This *minimum* of 33⅓ cents is applicable only to articles composed *wholly* of wool, and not to those composed partly of wool and partly of some other material. *But these* are subject *to the other minimums.* For the other rates of duties, with the minimums, on manufactures of wool, or of which wool is a component part, not enumerated, *see Woollens.*

N. B. Bombasins pay 33⅓, and worsted stuffs pay 25 per cent.

Cottons.—On all cotton cloths whatsoever, or cloths of which cotton shall be a component material, excepting nankeens imported direct from China, the original cost of which, at the place whence imported, with the addition of 20 per cent. if imported from the Cape of Good Hope or from any place beyond it, and of 10 per cent. if imported from any other place, shall be less than 35 cents per square yard, shall, with such addition, be taken and deemed to have cost 35 cents the square yard, and charged with duty accordingly. That is, the lowest rate of duty on any cotton cloths, is 8¾ cents per square yard.

after 30th June, 1830 - 4 c. per lb. and 50 do.

N. B. All wool imported on the skin shall be estimated as to weight and value, and shall pay the same rate of duty as other imported wool.

Woollens, on all maunfactures of wool, or of which wool shall be a component part, (except carpetings, blankets, worsted stuff goods, bombasins, hosiery, mits, gloves, caps, and bindings) the actual value of which, at the place whence imported, shall not exceed 50 cents the square yard, shall be deemed to have cost 50 cents the square yard. If the actual value exceeds 50 cents the square yard, and shall not exceed $1, it shall be deemed to have cost $1 the square yard. If the actual value exceed $1, and shall not exceed $2 50 the square yard, it shall be deemed to have cost $2 50 the square yard. If the actual value shall exceed $2 50, and shall not exceed $4 the square yard, it shall be deemed to have cost $4 the square yard.

The above to pay a duty until 30th June, 1829, of - - - - - 40 per cent.
after that time - - - - 45 do
if the actual value shall exceed $4 the square yard, until 30th June, 1829 - - 45 do

N. B. Worsted stuff goods, viz. bombazetts, camlets, calimancoes, circassians, moreens, shalloons, wildbores, and the like, pay - 25 do
bombasins, pay - - - - 33⅓ do
woollen blankets, hosiery, mits, gloves, and bindings - - - - - 35 do
woollen caps - - - - 50 do

on all articles which pay an ad valorem duty, you add all charges (except insurance) and 20 per cent., if imported from the Cape of Good Hope, or places beyond it, or from beyond Cape Horn; and 10 per cent. if imported from any other place or country, and it is on this aggregate amount that the duty is cast. This rule applies even to woollen cloth subject to a minimum. Take, for instance, woollen cloth, the actual value of which at the place whence imported, is from 50 cents to $ 1, the minimum is $1
add charges, suppose 8 per cent. 08

$1 08

then add 10 per cent., if from this side the Cape of Good Hope, or Cape Horn - - $10\frac{20}{100}$

the duty being 40 per cent. on $1 $18\frac{20}{100}$ it is, in fact, a duty of $47\frac{52}{100}$ cents per square yard, on a cloth of the actual value as above named.

Provided, that on all manufactures of wool, except flannels and baizes, the actual value of which, at the place whence imported, shall not exceed 33⅓ cents per square yard, shall be charged with a duty of - - 14 cts. per sq. yd.

thus, if a square yard of woollen cloth cost 1*s.* 4*d.*

charges, say - - - 2*d.*

1*s.* 6*d.* sterling

is 33⅓ cents, which will pay a duty of 14 cents per square yard. The 10 or 20 per cent., as in other woollens, is not added.

(N. B. On cotton manufactures, subject to a minimum, the rule is different, as will be perceived under the head of Cotton Manufactures.)

Woollens, mode of estimating the ad valorem duties.

In conformity to Treasury instructions, the following is the mode in whi the ad valorem duties are to be estimated, instead of that described on pa 62 of the tariff.

In estimating the duties on manufactures of wool, or of which wool is component part, which pay an ad valorem duty on a fixed minimum of fif cents, one dollar, two dollars and fifty cents, or four dollars per square yar neither the charges or the usual 10 or 20 per cent. are to be added to the minimum values; but the charges are to be added to the invoice cost, to a certain under which minimum value the cloths are to be returned by the a praisers.

To the value of all manufactures of wool, or of which wool shall be a con ponent part, costing over four dollars per square yard, and such as are n subject to a duty on the value of the square yard, the charges and 10 or 2 per cent., as the case may be, are to be added, and the duty charged on th aggregate amount.
